<b>**GUIDELINE:</b>		
Deep sedation/general anesthesia is a covered benefit only when in conjunction with covered oral surgery and pedodontic procedures when dispensed in a dental office by a practitioner acting within the scope of his/her licensure; and when warranted by documented conditions that local anesthetic and contraindicated. General anesthesia, as used for dental pain control, means the elimination of all sensations accompanied by a state of unconsciousness. Patient apprehension and/or nervousness are not of themselves sufficient justification for deep sedation/general anesthesia or intravenous conscious sedation/analgesia.

2. Complete series of x-rays (full mouth x-rays) or panoramic films are covered once every 36 consecutive months.
3. Fluoride treatments are covered once every 6 consecutive months.
4. Sealants are covered only on the first and second permanent molars with no caries (decay) for dependent children up to the 14th birth date. Limited to once per tooth per 36 month period.

6. Replacement of crowns, labial veneers or fixed partial dentures (bridgework), per unit, are limited to once every 5 year period.

10. The replacement of an amalgam or resin restoration in less than twelve months by the same contracted dentist or office is not chargeable to the Plan or the member.
11. Procedures that appear to have a poor prognosis as determined by a licensed LIBERTY dentist consultant are not covered.

In such cases, the first 6 units, as described in limitation #6 above, are covered at the specified member co-payment amount only, as documented in this Schedule of Benefits.
14. Fixed partial dentures (bridges) are covered when: replacing a "like-for-like" existing fixed partial denture with identical pontics and abutment teeth with good prognosis; abutment teeth qualify for crowns on their own merit, as described in limitation #6 above; there is only one missing permanent tooth in a full arch and the bridge would have opposing teeth in the opposite arch.
15. Surgical periodontal services are limited to once every 36 month period.
16. Full mouth debridement is limited to once in a 24 month period.
